Nabil Shahid

Software Developer

nabil110176@gmail.com   +92-347-7363136

Software developer having 5+ years of experience solving business critical problems through technology. Experienced in architecting, developing and maintaining small to large scale software systems . Advocate of making processes efficient through integration of right tools and automations. Experienced working both in teams and independently. Takes ownership of work and also contribute to the growth of the team.

Skills

During my experience as a Software Developer, I have worked closely with a number of technologies while working on front end views, back end APIs, databases, asynchronous processing, setting up CI/CD pipelines, configuring servers, application monitoring etc.
Among all, I consider myself proficient at working with the following technologies:

- **Programming Languages:** JavaScript, TypeScript, Python
- **Front End:** VueJS, Vuex, React, Redux, Angular, Webpack, Vite, Gulp, Babel, HTML, CSS, SASS, Tailwind.
- **Back End:** NodeJS, NestJS, ExpressJS, Flask, FastAPI, Celery, AWS SQS, SQLAlchemy, Mongoose
- **Database:** SQL, PostgresSQL, MSSQL, MongoDB, Google Firestore.
- **Serverless:** AWS Lambdas, Google Cloud Functions.
- **Source Control Management:** Git.
- **CI/CD:** Gitlab Pipelines, Github Actions, AWS Code pipeline.
- **Monitoring Tools:** Datadog, Sentry, AWS Cloudwatch.
- **Testing:** Jest, React Testing Library, Vue Test Utils, Pytest, Supertest.

Experience
